

# List of Legal Entities published to stop false claims of working with Mount Vema

**November 09, 2021** – His Mount Vema Majesty’s Government has published a webpage at [www.mount-vema.com](http://www.mount-vema.com) (the official site of the Kingdom of Mount Vema) with all the legal entities registered or operating under the laws of the Mount Vema territory.

The webpage was created to counter an increasing number of companies registering outside of the jurisdiction of Kingdom of Mount Vema and claiming to be part or working with Mount Vema or Vema Seamount.

The new webpage at ([www.mount-vema.com/legal-entities](http://www.mount-vema.com/legal-entities)) includes the list of Institutions of the Crown of the State; Royal Mount Vema Establishments; Royal Departments; Government Agencies and Public Services; Government Departments; City of Mount Vema Establishments; District Establishments and Services; NGOs; Registered Companies; Institutions of Education, Research and Development; Foreign Companies Legally Operating in Mount Vema; Overseas Companies Contracted to Provide Goods/Services to Mount Vema; as well as Law Enforcement, Security and Defence of the Realm.

All these institutions must be contacted first in person though an authorized official or through the official contact page at [www.mount-vema.com](http://www.mount-vema.com) (the official site of the Kingdom of Mount Vema), only then the entity may advise on the best form of communication going forward.

People and companies outside of the Mount Vema communication system need to be wary of people claiming to work for Mount Vema, or emails claiming to be from a Mount Vema entity. No matter how convincing it may look. Before signing any contract with any individual, or opening any email claiming to be from a Mount Vema entity, visit the official contact page at [www.mount-vema.com](http://www.mount-vema.com) (the official site of the Kingdom of Mount Vema), to check if the entity has sent a representative, or an e-mail, then follow the instruction on how to read their reply.
