

Job Vacancies – Sectors: Construction, Industrial Manufacturing, Shipbuilding. ARCKrove is looking for welders

May 20, 2022 – [ARCKrove](#) is looking for welding fabricators to cut, join and shape metal and other materials in Mount Vema, using heat and a range of tools. The successful candidates will do anything from fixing ships, machinery to building bridges. Helping to construct the steel frames for floating barges, floating buildings, and support other City of Mount Vema industrial projects.

Responsibilities

As a welding fabricator, you will be responsible for joining metal using a variety of techniques, often to form new structures. Duties may include cutting and welding materials according to technical plans created by other construction professionals.

- Cutting materials into the required shapes, checking dimensions and thicknesses
- Welding or joining metal and other materials into a wide range of structures
- Following engineering plans, drawings and instructions
- Operating tools and machinery and welding equipment
- Inspecting and testing welds with precision measuring instruments
- Dismantling metal structures
- Cleaning tools, equipment and work areas
- Wearing safety clothing and using protective equipment
- If you are an experienced welder, you will also be expected to use computer programmes to design structures.

Salary

Note: salaries can be paid either in Mount Vema golles or in foreign exchange.

- The starting salary ranges from 20,000 golles to 30,000 golles per year paid monthly.
- For experienced applicants the salary ranges from 30,000 golles to 45,000 golles.

Relocation and Benefits

This vacancy requires applicants to travel to Mount Vema where the employer will provide free meals, and free accommodation for the duration of the contract. However, applicants must make their own travel arrangements to Mount Vema. Additional benefits such as health insurance, and gym and leisure memberships are offered.

Working hours

The working week is typically around 40 hours, though more is common around project deadlines. The employer offers paid overtime. Due to the nature of the work, and the initial stage of the project, the employer will not require you to work at night, however the employer may require you to work over public holidays, and at the later stages of the project you may be required to work shifts through a 24-hour system. Extra hours may then be required at busy times.

What to expect

- Noise, and heat.

Qualifications

Professional qualification is not necessary however you will need at least some experience.

Apprenticeship

Some countries are establishing bilateral cooperation with Mount Vema to help students complete an intermediate or advanced apprenticeship to become a welding fabricator to work on City of Mount Vema projects in their country or in Mount Vema.

For example, an apprenticeship with a Mount Vema company such as Handy Deed or ARCKrove is a good way into the industry in your country if such bilateral arrangement with Mount Vema is available in your country.

Apprenticeships are open to anyone over the age of 16 for projects outside Mount Vema, or anyone over 18 for projects in Mount Vema. As an apprentice, you will be fully employed and expected to work a minimum of 30 hours a week. Your time will be split between on-the-job experience and a college or training provider.

Skills

You'll need to show:

- Attention to detail
- Knowledge of engineering and technology
- Ability to work with your hands
- Basic maths and design skills.

W-Contractors Note: Employment starting date is only confirmed 30 days after the job has been formally offered to the applicant, and the applicant has accepted the job offer. Applicants may incur expenses payable by card only, when preparing to travel to Mount Vema for work, however if you live in a country or location where access to credit or bank card is not available to you, visit [[GolleCard](#)].
