

Floating Hotels - Especially adapted vessels available on demand

August 17, 2021 – The Royal Mount Vema Hotel has confirmed that it can arrange for especially adapted vessels to be sent to Mount Vema at any time to be used as floating hotels to provide accommodation on demand.

Contractors, subcontractors, and people planning to travel to Mount Vema for work can now reach out to the Royal Mount Vema Hotel to get a quote, book a room, or inquire about reservations.

The hotel has told VSBCnews that it has and continues to negotiate deals with more owners of ships, including yachts and vessels that can be especially adapted to be used as floating hotels.

Facilities are now available on demand to provide accommodation to customers travelling to Mount Vema for work such as project architects, engineers, divers, environmentalists, journalists, and other members of the work force due to depart to Mount Vema, as well as tourists travelling to Mount Vema for leisure including diving or deep-sea fishing.

The Royal Mount Vema Hotel plans to maintain its hotels opened upon demand, throughout the year and maintain the highest standards of service, according to its webpage. The facilities will include reception services, concierge, reservations, accommodation, and food and beverage.

However, when the City of Mount Vema is completed, The Royal Mount Vema Hotel will have a network of full-service hotels in Mount Vema to serve both business and leisure travellers, with its flagship hotel to be located right in front of the City of Mount Vema Resort which is already being developed and will be delivered to Mount Vema when the city's infrastructure is ready.
