

Veman Food's breakfast cereal cornmeal porridge ready for the worldwide market

August 26, 2021 - Veman Food & Beverage, the food and beverage company of Mount Vema announced today that its ready-to-eat breakfast cereal cornmeal porridge is ready for the worldwide market.

The product according to people familiar with the company's production, marketing, and distribution plans, will be first sold on GolleMARKET aiming for worldwide distribution as soon as early next year.

The Veman Food cornmeal porridge is a food processed to be eaten as a breakfast cereal dish, made mainly with corn. Soaked in hot water, and boiled with other added flavours to soften, and make it palatable.

It can be served warm or hot in a bowl with milk, and with added flavourings such as sugar, honey, (dried) fruit or syrup to make a sweet cereal, or it can be mixed with spices, meat or vegetables to make a savoury dish.

Veman Foods said that it intends to introduce a number of different types of breakfast cereals within the next five years with a variety of flavors especially for the City of Mount Vema. Where it intends to introduce gluten-free cereals which are free of any gluten-containing grains. These cereals will be targeted for consumers who suffer from gluten-related disorders, as celiac disease, non-celiac gluten sensitivity and wheat allergy, among others.
